

# SIKANDER MIRZA

## ABOUT ME

A Computer Science student currently studying in University of Stirling. Currently doing my bachelors in Computing Science and looking to do masters in AI and Machine Learning Engineering. I am fairly proficient in full-stack web development, in a junior role as I have not yet had any official experience yet. I am generally good at understanding new computer programs, which is why I've gained some basic skills in many different software and mediums. Like digital drawing or 3D rendering mediums like Fusion 360.
